From
KMXT in Kodiak, this is the Alaska Fisheries Report. Coming
up this week...

More
bad news for victims of the 1989 Exxon Valdez oil spill,

Coho
catches look to be improving in Southeast,

And
the annual Bering Sea pollock survey is done, and the fish are continuing their
march to the north.

Those
stories and more coming up on this week's Alaska Fisheries Report.

I'm
Casey Kelly.

Thanks
for joining me.
