Casey Kelly/KMXT

From
KMXT in Kodiak, this is the Alaska Fisheries Report. Coming
up this week…

Measure

Four is the mostly hotly debated initiative on next week’s primary election
ballot. We’ll give you the arguments from both sides, from those who believe it
will shut down mining to those who think it’s a necessary step to save Bristol
Bay’s salmon.

American

Seafoods looks to expand its already significant catcher-processor fleet.

And

we’ll take you on a tour of Wrangell’s new public cold storage facility.

Those

stories and more coming up on this week’s Alaska Fisheries Report.

Thanks

for joining us.
