

## The Alaska Fisheries Report With Brianna Gibbs

Thursday, 02 May 2013

{audio}/images/stories/mp3/alaska\_fisheries\_report\_online\_may\_2.mp3{/audio}

From KMXT in Kodiak, this is the Alaska Fisheries Report. I&rsquo;m Brianna Gibbs. Coming up this week, harvest restrictions are expected for the Yukon River, but the Kuskokwim River may see more salmon going to fishermen. The latest EPA assessment claims a large mine in Bristol Bay would affect salmon habitat and the future of the state&rsquo;s film tax program. All that coming up, on the Alaska Fisheries Report.
