From KMXT in Kodiak, this is the Alaska Fisheries Report. Coming up this week...

The North Pacific Fishery Management Council passes a controversial catch-sharing plan for halibut in Southeast and Southcentral Alaska.

Tax relief measures for victims of the Exxon Valdez spill passes Congress just days before the first payments are expected.

And sperm whales are battling fishermen over black cod in the inside waters of Southeast.

Those stories and more coming up on this week's Alaska Fisheries Report.

Thanks for joining us.
