Kodiak High School has produced some talented athletes over the years, and many have continued on to play collegiate sports. Senior Hannah Wandersee has those aspirations, and has been busy reviewing game tapes and talking with college coaches about her athletic future.

Wandersee was the outside hitter for the high school's volleyball team, and just wrapped up a record-breaking season that culminated with a third place state finish — the highest Kodiak has ever placed in the state volleyball tournament.

KMXT's Brianna Gibbs caught up with Wandersee and talked about the past season and her hopes for the future.
